

# Artisan Value Fund

## QUARTERLY Fact Sheet

Investor Class: ARTLX | Advisor Class: APDLX

As of 31 December 2020

### Investment Process Highlights

The investment team seeks to invest in cash-producing businesses in strong financial condition that are selling at undemanding valuations.

#### Attractive Valuation

- Distinct discount to intrinsic value
- Low expectations
- Favorable risk/reward

#### Sound Financial Condition

- Focus on financial flexibility and liquidity
- Evaluate on- and off-balance sheet liabilities
- Allows management to pursue value-enhancing initiatives

#### Attractive Business Economics

- Focus on free cash flow and return on capital capabilities
- Ability to grow underlying business value
- Avoid "value traps"

Source: Artisan Partners/Russell. Class inception: Investor (27 March 2006); Advisor (1 April 2015). For the period prior to inception, Advisor Class performance is the Investor Class's return for that period ("Linked Performance"). Linked Performance has not been restated to reflect expenses of the Advisor Class and the share class's returns during that period would be different if such expenses were reflected.

Past performance does not guarantee and is not a reliable indicator of future results. Investment returns and principal values will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than that shown. Call 800.344.1770 for current to most recent month-end performance.

<b>TOTAL</b>	<b>100.0%</b>	<b>100.0%</b>

Source: Artisan Partners/Russell. <sup>1</sup>Russell 1000® Value Index.

## Portfolio Construction

- Typically 30-40 holdings
- Maximum position size generally 5%<sup>1</sup>
- Position sizes determined in part by how well a company meets the team's margin of safety criteria
- Attention to economic exposure
- Typically less than 15% cash

<sup>1</sup>Limitations apply at the time of purchase. See prospectus for more details. **Margin of Safety**, a concept developed by Benjamin Graham, is the difference between the market price and the estimated intrinsic value of a business. A large margin of safety may help guard against permanent capital loss and improve the probability of capital appreciation. Margin of safety does not prevent market loss — all investments contain risk and may lose value.

## Morningstar Overall Rating™

Star ratings are based on risk-adjusted return. The Overall Morningstar Rating for a fund is derived from

a weighted average of the performance figures associated with its 3-, 5- and 10-year Morningstar Rating metrics. (Overall: 3 stars out of 1128 funds; 3-years: 3 stars out of 1128 funds; 5-years: 4 stars out of 998 funds; 10-years: 3 stars out of 716 funds in the Large Value category).

## Morningstar Analyst Rating™

**Bronze**

The Morningstar Analyst Rating™ is not a credit or risk rating. It is a subjective evaluation performed by Morningstar's manager research group, which consists of various Morningstar, Inc. subsidiaries ("Manager Research Group"). In the United States, that subsidiary is Morningstar Research Services LLC, which is registered with and governed by the U.S. Securities and Exchange Commission. The Manager Research Group evaluates funds based on five key pillars, which are process, performance, people, parent, and price. The Manager Research Group uses this five-pillar evaluation to determine how they believe funds are likely to perform relative to a benchmark over the long term on a risk adjusted basis. They consider quantitative and qualitative factors in their research.

## Team Leadership

Portfolio Managers	Years of Investment Experience
James C. Kieffer, CFA	32
Thomas A. Reynolds IV	22
Daniel L. Kane, CFA	22
Craig Inman, CFA	21

Carefully consider the Fund's investment objective, risks and charges and expenses. This and other important information is contained in the Fund's prospectus and summary prospectus, which can be obtained by calling 800.344.1770. Read carefully before investing.

International investments involve special risks, including currency fluctuation, lower liquidity, different accounting methods and economic and political systems, and higher transaction costs. These risks typically are greater in emerging markets. Securities of small- and medium-sized companies tend to have a shorter history of operations, be more volatile and less liquid and may have underperformed securities of large companies during some periods. Value securities may underperform other asset types during a given period.

Russell 1000® Value Index measures the performance of US large-cap companies with lower price/book ratios and forecasted growth values. Russell 1000® Index measures the performance of roughly 1,000 US large-cap companies. The index(es) are unmanaged; include net reinvested dividends; do not reflect fees or expenses; and are not available for direct investment.

Unless otherwise indicated, all information in this report includes all classes of shares, except performance and expense ratio information, and is as of the date shown in the upper right hand corner. Portfolio statistics calculations exclude outlier data and may substitute information from a related security if unavailable for a particular security. Totals may not sum due to rounding.

The Morningstar Rating™ for funds, or "star rating", is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. Ratings are for the Fund's Investor Shares; other classes may vary.

The Morningstar Analyst Rating (i) should not be used as the sole basis in evaluating a fund, (ii) involves unknown risks and uncertainties which may cause the Manager Research Group's expectations not to occur or to differ significantly from what they expected, and (iii) should not be considered an offer or solicitation to buy or sell the fund. For actively managed strategies, people and process each receive a 45% weighting in their analysis, while parent receives a 10% weighting. Performance has no explicit weight as it is incorporated into the analysis of people and process; price at the share-class level (where applicable) is directly subtracted from an expected gross alpha estimate derived from the analysis of the other pillars. The impact of the weighted pillar scores for people, process and parent on the final Analyst Rating is further modified by a measure of the dispersion of historical alphas among relevant peers. The Analyst Rating scale is Gold, Silver, Bronze, Neutral, and Negative. For active funds, a Morningstar Analyst Rating of Gold, Silver, or Bronze reflects the Manager Research Group's expectation that an active fund will be able to deliver positive alpha net of fees relative to the standard benchmark index assigned to the Morningstar category. The level of the rating relates to the level of expected positive net alpha relative to Morningstar category peers. Analyst Ratings ultimately reflect the Manager Research Group's overall assessment, are overseen by an Analyst Rating Committee, and are continuously monitored and reevaluated at least every 14 months. Ratings are for the Fund's Investor Shares; other classes may vary. For more detailed information about Morningstar's Analyst Rating, including its methodology, please go to <https://shareholders.morningstar.com/investor-relations/governance/Compliance-Disclosure/default.aspx>.

Investors should consult their financial and tax adviser before making investments in order to determine the appropriateness of any investment product discussed herein.

**Median** is the data's midpoint value. **Market Cap** is the aggregate value of all of a company's outstanding equity securities. **Weighted Average** is the average of values weighted to the data set's composition. **Weighted Harmonic Average** is a calculation of weighted average commonly used for rates or ratios. **Price-to-Earnings Ratio (P/E Ratio)** measures how expensive a stock is. Earnings figures used for FY1 and FY2 are estimates for the current and next unreported fiscal years. **Price-to-Book Ratio (P/B Ratio)** measures a company's stock price in relation to its book value (the total amount a company would be worth if it liquidated its assets and paid back all its liabilities). **Fixed Charge Coverage Ratio** indicates a firm's ability to satisfy fixed financing expenses, such as interest and leases. **Active Share** is the percentage of a portfolio that differs from its benchmark. Active Share can range from 0% for an index fund to 100% for a portfolio with no overlap with an index. **Portfolio Turnover** is a measure of the trading activity in an investment portfolio — how often securities are bought and sold by a portfolio.

Artisan Partners Funds offered through Artisan Partners Distributors LLC (APDLLC), member FINRA. APDLLC is a wholly owned broker/dealer subsidiary of Artisan Partners Holdings LP. Artisan Partners Limited Partnership, an investment advisory firm and adviser to Artisan Partners Funds, is wholly owned by Artisan Partners Holdings LP.
