

Artisan Value Income Fund

QUARTERLY Fact Sheet

Investor Class: APFWX | Advisor Class: APDWX

As of 30 June 2022

This material must be preceded or accompanied by a current Artisan Partners Funds prospectus. [View a prospectus or summary prospectus.](#)

Investment Process Highlights

The investment team seeks to invest in cash-producing businesses in strong financial condition that are selling at undemanding valuations.

The investment team seeks to generate a current yield that is equal to or greater than ~2X the average current yield for the S&P 500® Index.

Attractive Valuation

- Distinct discount to intrinsic value
- Low expectations
- Favorable risk/reward

Sound Financial Condition

- Focus on financial flexibility and liquidity
- Seek to protect capital in difficult environments
- Allows management to pursue value-enhancing initiatives

Attractive Business Economics

- Focus on free cash flow and return on capital capabilities
- Ability to grow underlying business value
- Avoid “value traps”

Source: Artisan Partners/S&P/S&P DJI. Returns for periods less than one year are not annualized.

Past performance does not guarantee and is not a reliable indicator of future results. Investment returns and principal values will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than that shown. The Fund's returns may vary greatly over shorter periods due to the limited operating period since inception. Call 800.344.1770 for current to most recent month-end performance.

Craig Inman, CFA	23

Carefully consider the Fund's investment objective, risks and charges and expenses. This and other important information is contained in the Fund's prospectus and summary prospectus, which can be obtained by calling 800.344.1770. Read carefully before investing.

The value of portfolio securities selected by the investment team may rise or fall in response to company, market, economic, political, regulatory or other news, at times greater than the market or benchmark index. Dividend payments are not guaranteed and the amount declared, if any, could vary over time. International investments involve special risks, including currency fluctuation, lower liquidity, different accounting methods and economic and political systems, and higher transaction costs. These risks typically are greater in emerging markets. Securities of small- and medium-sized companies tend to have a shorter history of operations, be more volatile and less liquid and may have underperformed securities of large companies during some periods. Value securities may underperform other asset types during a given period.

S&P 500[®] Index measures the performance of 500 US companies focused on the large-cap sector of the market. The Dow Jones US Select Dividend Index measures the performance of the US's leading stocks by dividend yield. The index(es) are unmanaged; include net reinvested dividends; do not reflect fees or expenses; and are not available for direct investment.

Unless otherwise indicated, all information in this report includes all classes of shares, except performance and expense ratio information, and is as of the date shown in the upper right hand corner. Portfolio statistics calculations exclude outlier data and certain securities which lack applicable attributes, such as private securities. Artisan Partners may substitute information from a related security if unavailable for a particular security. Totals may not sum due to rounding.

Investors should consult their financial and tax adviser before making investments in order to determine the appropriateness of any investment product discussed herein.

Median is the data's midpoint value. **Market Cap** is the aggregate value of all of a company's outstanding equity securities. **Weighted Average** is the average of values weighted to the data set's composition. **Weighted Harmonic Average** is a calculation of weighted average commonly used for rates or ratios. **Price-to-Earnings Ratio (P/E Ratio)** measures how expensive a stock is. Earnings figures used for FY1 and FY2 are estimates for the current and next unreported fiscal years. **30-Day SEC Yield** is based on a formula specified by the SEC that calculates a fund's hypothetical annualized income, as a percentage of its assets. This hypothetical yield will differ from the fund's actual experience and as a result, income distributions from the fund may be higher or lower. **Dividend Yield** is a financial ratio that shows how much a company pays out in dividends each year relative to its share price. **Price-to-Book Ratio (P/B Ratio)** measures a company's stock price in relation to its book value (the total amount a company would be worth if it liquidated its assets and paid back all its liabilities). **Free Cash Flow** is a measure of financial performance calculated as operating cash flow minus capital expenditures. **Return on Capital (ROC)** is a measure of how effectively a company uses the money (borrowed or owned) invested in its operations. **Fixed Charge Coverage Ratio** indicates a firm's ability to satisfy fixed financing expenses, such as interest and leases. **Active Share** is the percentage of a portfolio that differs from its benchmark. Active Share can range from 0% for an index fund to 100% for a portfolio with no overlap with an index.

Artisan Partners Funds offered through Artisan Partners Distributors LLC (APDLLC), member FINRA. APDLLC is a wholly owned broker/dealer subsidiary of Artisan Partners Holdings LP. Artisan Partners Limited Partnership, an investment advisory firm and adviser to Artisan Partners Funds, is wholly owned by Artisan Partners Holdings LP.
